COMPLETE RANGE OF LEISURE BATTERIES

VMF Sportline • VARTA Professional • Trojan Batteries • Optima Batteries
Battery Containers • Powerline Chargers • Noco Chargers

Recreational vehicles and craft require solid, reliable battery power for house power and other key-off accessory loads. Ordinary automotive batteries aren't designed to handle the deep-discharge accessory power any RV demands. A leisure battery on the other hand is designed to store power and release it over a much longer period of time.

VARTA Batteries

Lower spec boats and motorhomes still need the right product to perform at their best. That's why VARTA developed the Professional Dual Purpose. Long lasting and maintenance-free, it's ideal for seasonal use.

REBELCELL LiFePo4 Deep Cycle Batteries

Rebelcell lithium batteries provides lightweight, low-cost-per-cycle, safety and high discharge performance. Rebelcells are a drop in replacement for lead-acid batteries without modifying the application. Installation in series and parallel is possible without additional wiring and BMS (Battery Management System) just like normal AGM batteries.

Rebelcell lithium batteries are equipped with a LED gauge. This consists of a pair of LED's on the upper side of the battery these give you an accurate reading of the state of charge of the Rebelcell. To provide an accurate indication of the state of charge the BMS measures charge and discharge current of the battery and calculates the capacity. Additionally the BMS protects the battery against abuse and shutdowns the battery when certain safety limits are exceed (eg excessive load or temperature) to prevent permanent failure of the battery. If the limits return within the norm, the battery will switch on itself.

Trojan Batteries

TROJAN Deep Cycle 6V & 8V With over 85 years of experience, Trojan Battery Company is the world's leading manufacturer of advanced deep-cycle battery technology. Long-lasting, reliable and clean, customers all over the globe know Trojan deep-cycle batteries deliver superior power to any golf, renewable energy, floor machine, aerial work platform, commercial trucking, marine or recreational vehicle application. Choose the best deep-cycle battery in the market - Trojan.

Type	Specs	Size	Lay-out	Terminal	BHD
T105	6V 225Ah	264x181x276	2	ST 5/16-18	Bo0
T145	6V 260Ah	264x181x295	2	ST 5/16-18	Bo0
TE35	6V245Ah	244x191x276	2	DIN	Bo0
T875	8V 170Ah	264x264x181	2	DIN	Bo0
T1275	12V 150Ah	327x181x276	1	ST 5/16-18	Bo0
6V-GEL	6V 189Ah	260x181x276	2	MARINE 5/16-18	Bo0

Key benefits:

- Designed for standard motorhomes, caravans and boats with less or moderate energy demand
- Long lasting - up to twice the cyclic stability of conventional flooded batteries (up to 200 cycles @ 50% DOD)
- Minimal self-discharge makes it ideal for seasonal use
- Ideal for dual power applications (can be used for both starting and overall energy supply)
