Since 1914

Power Products **2016**

About NOCO.

The NOCO Company was founded in 1914 in Cleveland, Ohio. Joseph Henry Nook, a local tire and battery distributor, set out to develop a product that would prevent battery corrosion. After several hundred different formulations, Mr. Nook began commercially manufacturing and distributing the world's first Battery Corrosion Preventative which he called NCP2. NCP2 is an acronym for "No Corrosion Product" which is applied in "2 Steps". The NCP2 brand quickly became a household name in every major battery and automotive shop. For over 100 years, the NCP2 brand has been preventing battery corrosion on over one billion vehicles and applications worldwide.

Since then, NOCO has grown into a leading designer and manufacturer of innovative consumer-based battery and power products.

BOOST™

UltraSafe® Lithium
Jump Starters

Safely jump start
a dead battery
in seconds.®

Safe, powerful jump starting.

Designed for most vehicles including ATVs, lawn mowers, motorcycles, cars, trucks, boats, RVs, tractors, equipment and more. New more powerful models for diesel and high-displacement engines, but still safe on engines of all sizes.

NOCO Designed In the **USA**
Patent US 9,007,015 B1

joules = Power (w) X Time (sec)
Joules^{3S} is the actual amount of power delivered over 3 seconds.

Features
Integrated Clamps
12V 15A Out Port
12V 5A Fast Recharge
USB IN & USB Out
Built-in Voltmeter

12V Power Port.

For tire pumps,
inverters, lights
+ more.

Built-in to every
GB70 & GB150.

Voltmeter.

Exclusively on GB150.

Quickly diagnose
starting problems with
integrated voltmeter.

NOCO 
genius[®]

Smart multi-purpose
battery chargers.

UltraSafe, smart battery chargers designed
to charge and maintain all battery sizes.

Smart charging, for all sizes.

Designed for ATVs, lawn mowers, motorcycles, cars, trucks, boats, RVs, tractors, equipment and more.

Smart Multi-Purpose
Battery Chargers

genius

Small, yet powerful.

Professional grade.

Start-Stop.

Counteracts increased cyclic energy demands placed on batteries in micro-hybrid vehicles.

Firewall.

Multi-level safety barrier prevents unsafe and abnormal conditions.

Optimization.

Stabilizes internal battery chemistry for increased performance and longevity.

Load Tracking.

Dynamically changes charge current when a load is placed on the battery.

Diagnostics.

Intuitive visual diagnostic tool for detecting reverse polarity, low-voltage or damaged batteries.

Energy-Save.

Minimizes energy consumption when full power is not needed.

Thermal Monitor.

Internal temperature sensors adjust charge based on ambient climate.

Safe.

Protects against reverse polarity, sparks, overcharging, overcurrent, open-circuits, short-circuits and overheating.

Memory.

Returns to last selected mode when restarted.

Interactive.

Alters the charging process based on organic battery feedback.

Recovery.

Applies a high-voltage pulse charge when low-voltage, sulfation or lost capacity is detected.

Rugged.

Dirt, water, UV, impact and crush resistant.

CANBUS.

Automatically enables the charging port to charge CANBUS systems.

Maintenance Plus.

Keeps the battery fully charged without overcharging, indefinitely.

**Industrial
strength.**

Designed Tough.

IP68

Waterproof.

100% completely sealed, protects against extreme working environments & rated at IP68.

Safe.

Protects against reverse polarity, sparks, overcharging, overcurrent, open-circuits, short-circuits and overheating.

Firewall.

Multi-level safety barrier prevents unsafe and abnormal conditions.

Interactive.

Alters the charging process based on organic battery feedback.

Recovery.

Applies a high-voltage pulse charge when low-voltage, sulfation or lost capacity is detected.

Optimization.

Stabilizes internal battery chemistry for increased performance and longevity.

Ignition Protected.

Non-igniting and temperature controlled for safe and worry-free operation.

NOCO® X GRID

Power the adventure.

Ultra-compact, rugged and expandable mobile power products. Collect power from the sun and recharge on the go.

Rugged. IP65

Water, dust and impact resistant.

Lithium battery packs.

Rigid Solar Panel
12V Auto Kits

BATTERY LIFE+

Maintenance, perfected.

Multiple Battery Chemistries.

Safely charges Wet, Gel, MF & AGM batteries.

Waterproof.

Weather resistant solar charger for outdoor use rated at IP65.

UV Resistant.

Engineered to take the abuse of the sun through the use of color stabilization and UV inhibitors.

Designed for Safety.

Short circuit, open circuit, overheat & overcurrent protected.

Thin Film Technology.

Works well in low-light, cloudy and overcast conditions.

Black Current Protection.

Protects the battery from accidental back current drain at night.

Ultra Low-Profile.

Unique low-profile design for a light-weight, compact charger.

Rugged Frame.

Made from an engineered polymer for high-strength and durability.
